

Jerrard B. Gaertner, S.B., CPA, CA, CFF, CITP, CISA, CGEIT, CISSP, CIPT, CIA

Principal
BizCom Group
Toronto, Ontario

Jerrard Gaertner earned his undergraduate degree from MIT, studied medicine at the University of Pennsylvania, and studied audit/risk management at McGill University. His experience spans over 30 years at major international accounting firms, where he was responsible for the most complex statutory systems auditing, technology risk, and computer security engagements. Mr. Gaertner is an expert in AI governance, data analytics, forensic investigation, financial fraud, insolvency law (Canada), computer security, privacy law, and regulatory compliance. He has served as an expert witness in financial- and fraud-related matters, both in court and before a parliamentary commission in Canada. Mr. Gaertner is a published author (Carswell Thomson Reuters) and has been adjunct and part-time professor of computer science and law at multiple universities. Mr. Gaertner is currently a principal at The BizCom Group Inc., which provides AI governance and AI risk management solutions to clients.
