

Jacob Peacock, CPFA

Managing Director, DC Advisory Services
Mariner Institutional
Winter Park, Florida

Jacob is the Managing Director of DC Advisory Services at Mariner Institutional. His team specializes in providing fiduciary oversight for Mariner's defined contribution clients. They assist clients with overall plan design, investment selection and monitoring, along with plan governance including vendor evaluation projects and total plan cost analysis. He also helps shape Mariner's firmwide defined contribution strategy, drawing on his deep experience in the retirement plan space.

Jacob actively participates and is a frequent speaker at educational and industry conferences. He recently served as President on the Industry Committee for NAGDCA (National Association of Government Defined Contribution Administrators) and as a member of the Executive Board which is focused on improving public sector retirement plans. He has spent his entire career in the retirement industry and brings a unique perspective with prior experience including participant level education, corporate strategy, and business development. Prior to joining Mariner, he held positions at Mercer and Wachovia Retirement Services (now part of Principal Financial).

Jacob holds an MBA in finance and a bachelor's degree in marketing, both from the University of North Carolina at Charlotte.
